

## CASE STUDY Withum+

## **LOCATION**

Multiple projects in NJ + FL

Knowing that their spaces are critical tools to attract top talent, Withum is choosing to build flexible spaces that embody their internal "strength messages" of passion, innovation, and community. By choosing to go with a full DIRTT construction solution, their spaces are flexible enough to change easily as the future dictates. Technology is embedded into walls, and custom graphics reinforce their brand throughout.

## **PROJECT STATS + HIGHLIGHTS**

81,400+ lbs

successful projects

of construction waste diverted from landfills

## **ARCHITECT**

The Aztec Corporation

When they decided to expand to a new 34,000 sf office space in Whippany, NJ, they knew they needed to do something different to attract top talent and appeal to a millennial workforce. Our team presented the opportunity to build a truly unique space that would easily adapt to future changes using a DIRTT solution. After reviewing ideas with their architect and exploring possibilities in a virtual

Our sustainable approach diverted over 25,000 lbs of construction waste from landfills. Following the success of the Whippany project, Withum has gone on to build four additional projects using the same method. We built 46,000 sf in East Brunswick in 4-1/2 weeks with nearly 35,000 lbs of construction waste diverted from landfill. We built another 20,000 sf in Orlando, FL in 3-1/2 weeks

reality environment, Withum decided to make this new space a catalyst for change and growth. By leveraging technology and an off-site construction method, it took four weeks to manufacture and three and half weeks to install 70+ private offices and conference rooms in the 34,000 sf office. The space is vibrant and uniquely Withum.

with 15,500+ lbs of waste saved from landfill. In Saddle Brook, NJ, we built 8,100 sq ft in 2-1/2 weeks, diverting 2,860 lbs from landfill. Our most recent project completed in Philadelphia, PA we built 6,175 sq ft in 3 weeks, and saved 2,530 lbs of waste from the landfill.
